

Rutuja Kadam

Full Stack Developer

✉ rutujakadam9881@gmail.com | ☎ 8380942069 | Nashik | [Portfolio](#) | [in LinkedIn](#) | [GitHub](#)

SUMMARY

B.E. Computer Engineering student with practical experience building full-stack web applications, REST APIs, and backend systems from the ground up. Completed a Full Stack Web Developer Internship at SPARD Technologies and shipped projects using Django, Next.js, PostgreSQL, Firebase Authentication, and WebSockets. Passionate about backend engineering and building web applications that are clean, reliable, and actually useful.

SKILLS

Python	Django	Django REST Framework
SQL PostgreSQL	Git & Github	Next.js

EXPERIENCE

Full Stack Web Developer Intern, SPARD Technologies 01/2026 – 04/2026

Worked across the full stack using Django, PostgreSQL, Next.js, and REST APIs. Designed and tested backend endpoints with Django REST Framework and Postman, while taking ownership of authentication workflows, frontend-backend integration, and parts of the application architecture. Worked closely with the team through Git and GitHub, and steadily improved both the functionality and structure of the codebase through API integration and backend refinements.

PROJECTS

BookFlow — Full-Stack Book Marketplace, ([github](#)) *Next.js • Django • PostgreSQL • Firebase • WebSockets • REST APIs*

Built a full-stack book marketplace using Next.js, Django, and PostgreSQL. Implemented Firebase Authentication, JWT-based REST APIs, and real-time chat features using WebSockets and Django Channels. Designed scalable workflows for buying, selling, and exchange management.

National Digital Health Record System, ([github](#)) *Django • PostgreSQL • REST APIs • React.js • JWT Authentication*

Developed a comprehensive digital health record management system using Django and PostgreSQL. Implemented secure patient data storage, role-based access control for doctors and patients, REST API endpoints, and a responsive frontend for managing medical records and appointments.

Text Analyzer — NLP-Based Text Analysis Tool ([github](#)), ([demo](#)) *Python • Django • NLP • REST APIs • JavaScript*

Built a Django-powered text analysis tool featuring word frequency analysis, sentiment detection, readability scoring, and keyword extraction. Integrated NLP processing on the backend with a clean interactive frontend for real-time text insights.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Engineering 2022 – 2026

Matoshri College of Engineering and Research Center Nashik, Maharashtra
CGPA: 9.22

Higher Secondary Class XII 2020 – 2022

Arts, Commerce & Science College Ozar Mig, Nashik, Maharashtra
Scored 73.50%

CERTIFICATES

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate Oracle

ACCOMPLISHMENTS

IDEATHON 2024 — Matoshri Technical Event Cell 2024

Presented idea for a Training and Placement Cell management system at the college-level ideathon.

Full Stack Web Developer Internship Completion, SPARD Technologies

Successfully completed a Full Stack Web Developer Internship focused on Django backend systems, REST APIs, authentication workflows, and scalable web application development.
